

Food safe inspector gloves for incidental cut protection

ABOUT THE PRODUCT

Our TenActiv™ SNF gloves are safe for food handling and protect hands against minor scrapes and cold. Ideal for use as inspector gloves, they provide 360° cut protection with ANSI A2 cut resistance plus insulation to keep hands warm and comfortable. Can be worn on their own or as a liner under other gloves for extra protection against cold and incidental cuts. They are CFIA-compliant for safe food handling.
