

KnitActiv™ | S13GPU

Food safe low-linting gloves with non-marring palms for food machine maintenance to prevent contamination

ABOUT THE PRODUCT

Our food safe KnitActiv™ S13GPU gloves are low-linting and non-marring to prevent contamination during food machine maintenance. A non-marring polyurethane palm coating offers better dry grip and tactile feel that will not leave a residue, making them ideal for glassware and small parts handling. They're low-linting to prevent shedding and CFIA-compliant for safe food handling.
