

TenActiv™ | S13SXPUQ

Economical low-lint gloves for incidental cut protection and non-marring palms to prevent contamination

ABOUT THE PRODUCT

Our TenActiv™ S13SXPUQ low-linting gloves with non-marring palms are an economical choice for cut protection against incidental hazards. White TenActiv™ engineered yarn material offers 360° cut protection with low ANSI A2 cut resistance and will show dirt or other contaminants. Low-linting with non-marring polyurethane palm coating provides better dry grip that will not leave residue, making them ideal for handling sensitive material like glass.
