Garbage Bags

Inteplast Group W. Ralston **2600 Series** is committed to improve environmental quality:

- by reducing energy
- by reducing materials consumption
- by reducing the impacts of pollution

Inteplast Group W. Ralston **2600 Series**

- Meet government and industry safety and performance standards.
- Meet requirements of *Fisheries Act* and the *Canadian Environmental Protection Act (CEPA)* for manufacture and transport.
- Use Non-toxic inks.
- Contain post-consumer material.
- Contain household post-consumer material.

“**household post-consumer material**” means material collected from curbside and depot collection programs serving individual household and apartments.

“**post-consumer material**” means a product which has served its end-use at the consumer level, has been discarded by the consumer, and would, unless diverted, enter the waste stream. This includes household post-consumer material.

“**recycled material**” means post-consumer material and pre-consumer material. It does not include by-products of an industrial process that can be, and regularly are, used in either the same process, or in a different process, except that proportion which originated as post-consumer material and pre-consumer material.
