Tube-Cutting Band Saws

DoALL TDC-600CNC Olympia™
Specialty Tube Saw and Pipe Saw –
24" Round Tube Capacity

OLYMPIA™

The DoALL Olympia™ series of specialty saws are automatic dual column, CNC metal-cutting machines specially designed to cut large tube and pipe. These DoALL metal cutting band saws provide full automation for precise cuts, saving both time and money. A large variety of optional accessories are available to customize the machine for specific sawing requirements.

DoALL Olympia tube saws provide the opportunity to bundle material saving time and money in high production environments like metal service centers. The saw blade is at a 10° cant for high-efficiency cutting on a wide range of structural shapes and configurations of tubing.

Features and Benefits for all Olympia saws:

- True dual column design with high rigidity, outstanding cutting performance and long life
- Blade is offset 10° for optimum cutting of tubes
- Ideal for bundle cutting
- Standard chip conveyor, automatic guide arm, variable vise pressure and discharge table
- Optional close spacing work rollers
- Optional lift roller unit

Additional Features and Benefits for the TDC-600SA:

- Compact design feature three-wheel band drive
- Band saw can be easily moved

Additional Features and Benefits for the TDC-1000CNC:

- Work rollers in machine frame
- Rack and pinion indexer
- Pull system indexer

Standard Equipment on most models:

- User-friendly saw controller
- Variable frequency drive
- Work light
- Pulley-driven, band brush
- Automatic guide arm setting
- Work height sensor
- Overfeed protection
- Variable vise pressure control
- Hydraulic band tension
- Dual acting index vise jaws for crooked stock
- Flood coolant
- Tool kit
- Complimentary DoALL cutting fluids package
- One DoALL bi-metal saw blade
- Instruction and parts manuals on CD

Accessories/Options available on most models:

- Discharge vise
- Bundle cutting for small tubes
- Mist-style saw band lubrication
- Laser line generator
- Chain chip conveyor with pan
- Handle for chip pan and collection box
- Input or output roller conveyor with drip pan
- Heavy-duty input or output roller conveyor with drip pan
- Hydraulic lift roller conveyor
- Power chain driven roller conveyor
- Vertical hold down
- Additional conveyor rollers
- Work stop with ruler
- Work stop with digital display
- Powered work stop
- Powered work stop with digital display
- Work stop extension
- Single fixed or movable side vertical guide roller
- Wear parts service kit
