

**Master Fluid**  
SOLUTIONS®

*Global leader in  
innovation and technology*

*Global leader in  
innovation and technology*

The pioneer of metalworking coolants, Master Fluid Solutions has led the industry with integrity, innovation, expertise, technology, and environmental awareness for more than 67 years.

With more than 20,000 customers including Original Equipment Manufacturers and their tiers worldwide, our highly trained global sales and tech-support experts serve North and South American, European, and Asian-Pacific manufacturers.

ISO 9001

*The solutions you need*

Our in-depth mastery of metalworking manufacturing allows us to target your needs, concerns, and expectations with solutions to:

- > improve your production and performance
- > ensure product repeatability and eliminate costly rejects
- > keep you environmentally code-compliant
- > reduce overall costs and boost your profitability

*Meeting the highest standards*

- > our **products have earned more than 90 aerospace approvals** to meet or exceed the most stringent aerospace specifications
- > our **quality assurance and continuous improvement techniques** ensure products of the highest quality and repeatability
- > our **ISO 9001:2008 certification** for design, manufacturing, and servicing of metalworking fluids, cleaning compounds, and related products assure we meet and exceed industry standards

*Global leader in  
innovation and technology*

#### *In-depth market knowledge*

Servicing global manufacturers in our target areas, we make it our business to know and respond to these major markets:

- > aerospace
- > medical devices
- > automotive
- > defence and law enforcement
- > industrial parts production
- > agriculture and construction
- > energy exploration and production

#### *Business partnership*

We earn and value your trust based on:

- > our corporate culture of integrity, focus, and commitment
- > our worldwide team of skilled sales and tech service professionals
- > our quality, consistent, innovation solutions
- > our commitment to the environment

#### *The hard facts*

After a data-gathering visit to your production facilities, we produce a customized, detailed, facts-based analysis to give you the hard facts to help you make informed production decisions pertaining to:

- > cost analysis
- > quality control
- > production and cost optimization
- > opportunities for improvement
- > trouble-shooting specific concerns

*Our data can help drive  
your facts-based decisions*

*Innovative products to energize your production*

*Introducing the newest piece to our high-powered brands*

*Achieve cutting edge operations with TRIM® cutting and grinding fluids*

- > reduce fluid and tool costs
- > reduce downtime and labor
- > lower disposal costs
- > ensure code compliance
- > excellent operator acceptance
- > provide safer workplace
- > deliver savings to the bottom line

*Optimize metal-forming processes with WEDOLiT™ pipe and tube expansion, forming and corrosion control fluids*

- > offer customized product solutions
- > deliver more reliable, efficient metal forming and pipe and tube expansion
- > ensure a smooth process flow, long tool life, and low fluid consumption
- > provide optimum corrosion protection

*To clean and protect, rely on hard-working Master STAGES™*

- > provide excellent cleaning in spray, immersion, or ultrasonic parts vibratory finishing applications
- > preform multi-metal operations
- > broad contaminant fluid removal
- > protect parts from corrosion
- > reduce disposal costs

*Reduce costs dramatically with XYBEX® fluid management solutions*

- > significantly reduce coolant usage
- > greatly reduce disposal fees and labor
- > reduce downtime and repair costs
- > high ROI with cost savings
- > maximize productivity and minimize waste

### Contact us

Let Master Fluid Solutions create a detailed, fact-based, customized analysis to prove just how much we can save your operation in time, material, and cost, while improving quality, with the optimal fluid solutions that are just right for your production.

For prices or additional information, contact your Master Fluid Solutions Distributor.
